## 2010 Southport Mooring Permit

The following moorings have been permitted by the Harbor Master:

# SAMPLE

Your permit for the following mooring number(s) has been denied for the following reason(s):

**Please identify your mooring with the enclosed sticker(s) placed on the TOP of your mooring ball/float. The surface should be DRY and CLEAN before affixing. Stickers should be in place by July 1, 2010. If you have difficulty affixing the sticker to your buoy, a cutout from a plastic milk bottle then attached with a cable tie will work.**

**You are responsible for your own mooring tackle. Starting in 2009, all moorings must have been inspected at least once within the past four years, and at least once every four years thereafter.**

All mooring permits shall expire on December 31 of this year.

The Southport Selectmen, Harbor Committee and Harbor Master wish you a safe and enjoyable boating season. Please call the Town office at 633-3318 if we can be of any assistance.

Respectfully,

John S. Lunt  
Harbor Master
